**The 2815 EP Shoe Label** is designed specifically for the high-loss, hard-to-protect footwear category. Engineered to perform, this streamlined Checkpoint EP label provides increased accuracy and precision for greater merchandise protection and better on-shelf availability. Developed for high-speed @Source integration, it features a smaller footprint than ever for easy placement on virtually any shoe style, with less material waste. What's more, greater heat tolerance means this label will continue to provide a high level of performance during the rigorous integration process.

Checkpoint's patented double deactivation system guarantees permanent deactivation of correctly integrated shoe labels.

### Highlights:

- ✓ Designed specifically for shoes
- ✓ Smaller and more effective
- ✓ Increased accuracy and precision
- ✓ Greater heat tolerance
- ✓ Engineered for high-speed @Source integration

### Benefits:

- ✓ Better alarm management
- ✓ Improved on-shelf availability
- ✓ Discrete protection for improved customer experience
